Customer Supplied Art Checklist

Art Submission

GETTING FILES TO CRUSH: The easiest way to send us small files is via email straight to Wanda or Carrie. We can receive email attachments up to about 10 megabytes, but keep in mind that your outbound email server may have smaller limits. If you have multiple or larger files, you can upload files to our FTP site. To access our secure FTP site, you need a unique login and password. Please contact Wanda Harmison or Carrie Higgins - it only takes a few minutes. You can also burn a CD or DVD and send it to us.

- 1) NATIVE FILES: We always prefer that you work in Adobe Illustrator and use this as your finished art, but we can accept Photoshop, InDesign, or Quark as well. Art created in other programs may not be compatible with our system, so please call to discuss if you have questions. It is important that you supply your art in the original file format in which it was created.
2) Please provide a hard copy print or PDF of your art along with the art files, so we can be assured that the files/fonts/colors are correct and meet with your approval.
3) Please supply 2 (two) digital copies of the art file: A copy of the document with all text outlined and a copy with type intact along with
4) ALL FONTS used in case editing is required.
5) Please include all LINKED IMAGES with your art files. It is best if images are not embedded. All images should be linked, and copies of the links supplied.

Please fill out the following to submit with your art:
